# STATEMENT OF COMPLIANCE

Hon. Tapunuu Papaliitele Unasa Niko LEE HANG Minister of Works, Transport & Infrastructure APIA

Dear Honourable Minister

Re: Samoa Ports Authority Annual Report and Audited Financial Statements for Financial Year Ended 30 June 2020.

In compliance with Section 35(1) a,b & c of the Ports Authority Act 1998, it is with great pleasure that I submit herewith the Samoa Ports Authority's Annual Report with the Audited Financial Statements for the year ended 30 June 2020 for your information and presentation to Parliament.

The Report consists of the following:

- 1. Chairman's Report
- 2. General Manager's Review
- 3. Independent Auditor's Report
- 4. Certification by Directors
- 5. Audited Annual Financial Statements

Ma le faa'alo'alo tele lava.

So'oalo Kuresa SO'OALO GENERAL MANAGER

# STATEMENT TO PARLIAMENT

Hon. Speaker of the House Parliament of Samoa Mulinuu APIA

Dear Mr Speaker

Pursuant to Section 35 (2) of the Ports Authority Act 1998, it is my pleasure to present to the Parliament of Samoa, the Annual Report with Audited Financial Statements of the Samoa Ports Authority for the Financial Year ended 30 June 2020.

I am pleased to annouce that the Financial Year from 01 July 2019 to 30 June 2020 was another good financial year for the Authority despite the challenges in the last seven months.

I wish to extend my sincere thanks and appreciation to the Board of Directors, Management and Staff for the good results of the year.

Ma le faa'alo'alo tele lava.

Hon. Tapunuu Papaliitele Unasa Niko LEE HANG

MINISTER OF WORKS, TRANSPORT & INFRASTRUCTURE

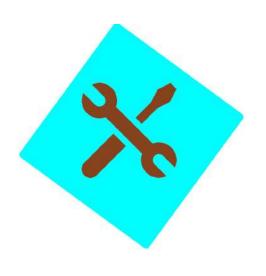

"ASPIRE TO BE THE BEST PROVIDER OF EFFICIENT AND EFFECTIVE PORT SERVICES"

"TO DEVELOP AND MAINTAIN SAMOA'S PORT INFRASTRUCTURE"

- TO BE IN LINE WITH IT'S ECONOMIC AND SOCIAL REQUIREMENTS,
- IN PROVIDING SAFE, SECURE, EFFICIENT, RELIABLE AND PROFITABLE PORT SERVICES, AND
- BY MEETING INTERNATIONAL PORT STANDARDS"

# **REVIEW YEAR HIGHLIGHTS**

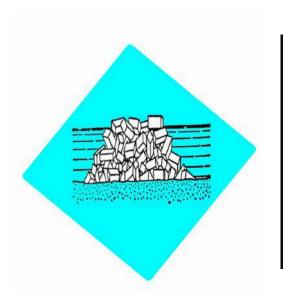

## **OPERATIONS**

- Revenue tonnage (GRT) recorded 2.5 million compared to 3.7 million last year; a decline of 32%.
- Number of Containers (TEUs) handled 41,200 compared to 42,102 in 2019; a drop of 2%.
- Number of Vessels 637 compared to 621 last year; a rise of 3%
- Number of Cruise Ships 2 compared to 17 in 2019; a drop of 88%

## **FINANCE**

- Net Profit of WST\$7.6million compared to WST\$8.7million in 2019; a drop of 13%
- Declared and Paid Dividend of WST\$2.0million
- Cash Flow Balance of WST\$10.4 million compared to WST\$8.0million in 2019 increased by 30%.

## **MAJOR DEVELOPMENT PROJECTS**

- ADB Samoa Ports Improvement Project to cost USD\$62.23 million
- Feasibility studies for the Vaiusu Port & Asau Channel Project.
- Manono Jetty Project.

# **CHAIRMAN'S STATEMENT**

### Introductory remarks

I am honoured in this third year of my SPA chairmanship to report on yet another-year of significant achievements, despite the Authority's operations slowing down due to the global impact of Covid-19 and to a lesser extent the Measles virus crisis in late 2019.

### Major activities, dividend information and overall performance

In July 2019, SPA celebrated the important milestone of its 20th anniversary. It was a moment to look back and to reflect on the challenges and accomplishments of the past two decades. At this time the Authority was honoured to host in Apia, the meeting of the Pacific Maritime Transport Alliance (PMTA), which brought many participants from around the Pacific region including Australia and New Zealand, and was pleased to see the SPA General Manager/CEO assume the PMTA presidency.

The financial period the subject of this report has been another year of general productivity and overall economic and financial success with SPA generating a net profit of \$7.6 million, a consequential drop by 12% from 2019 due to the double impacts of the Measles crisis in 2019 and the Covid19 pandemic since March 2020

From this net profit SPA was able to continue dividend payments to the Government of Samoa as a return on its investment. Total dividends paid for this financial year amounted to \$2.0 million.

With stringent restrictions on border protection, new and improved vessel clearance procedures have been introduced as precautionary measures to continuously monitor the pandemic situation, in order to protect our nation from the invasion of the deadly Covid19 virus and any other threat of transmissible diseases we may face in the future

## Capital projects

SPA is proceeding with the planned Project for Enhancing Safety, Security and Sustainability of Apia Port valued at USD\$62.2 million and funded by Asian Development Bank (ADB). The grant Project agreement was signed in September 2019. Initial phases of the Project are well underway with tenders for the Tugboat, the Civil Works Phase1and the Green Port Initiative components already completed and actioned.

Feasibility fieldwork studies of the proposed Vaiusu Bay and the Asau Port channel improvement projects have also been completed. These proposed developments will have potential to enhance the serviceability of Samoa's ports to foreign vessels and capitalising on the opportunities identified as a catalyst for SPA's competitive advantage in the Pacific region, as well as opening up greater economic and commercial opportunities for Savai'i, indeed for the country as a whole

## Acknowledgements

SPA's ability to accomplish and succeed is measured directly by the quality of its service, and by the enabling support and cooperation SPA receives from the Government, the public and all its clients. Resilience building has been a key target to overcome challenges posed by the Measles and also the Corona virus pandemic, and to ensure SPA has the capability to deliver on its mission of providing safe, reliable and profitable services

On behalf of SPA I thank and acknowledge the Hon Tapunuu Papaliitele Unasa Toleafoa Niko Lee Hang, Minister of Works, Transport & Infrastructure, for his stewardship and enduring support to the Board and to Management.

With gratitude, I record particular appreciation to my fellow Directors for their time, energy and dedication during the past year and for the expertise and insights they each bring to steering and overseeing SPA's activities.

The following are the other serving Board Directors:

- o Tuatagaloa Shane Wulf, Deputy Chairman;
- o Luafau Leia Tuulima;
- o Afoa Raymond Pereira;
- o Tevaga Pisaina Leilua Lei Sam;
- o Reverend Nuuausala Siaosi; and
- o Moananu Ioane Filemu, who sadly passed on in January 2020

SPA is fortunate in having well skilled and committed staff led by the General Manager/CEO, with their combined contributions to the efficient management and overall supervision of all Authority functions and activities. On behalf of the Board I warmly acknowledge and thank them all for their loyalty and service and in ensuring another successful year for the Authority in the midst of adversity and uncertainty.

We express to Afioga So'oalo Kuresa So'oalo, a particular tribute of acknowledgement for his fine management and leadership of the Authority. We welcome his re-appointment as SPA General Manger/CEO.

In like manner let me also acknowledge with warm appreciation the role and important contributions of all our stakeholders and other varied players within the Port system which all combine to ensure the functioning efficiency and safety of the Port, and to make this year another successful year for SPA. We thank them for the essential services they render and for their invaluable commitment and cooperation.

#### Faafetai

De

Tuiloma Neroni SLADE Board Chairman

# **GENERAL MANAGER'S REPORT**

It is with much pleasure that I present the 21<sup>st</sup> Annual Report of the Samoa Ports Authority for the financial year ended 30 June 2020 noting the achievements and challenges endured during the review year.

## **Operational Overview**

Strong trading results in the last record financial year continued during the first quarter of the review financial year before the measles outbreak in the second quarter and the declaration of a state of emergency (SOE) for the Covid-19 pandemic in the third quarter where the operational results were affected.

The number of vessels handled slightly rose by 3%, since the Apia port remained open to accept cargo and fishing vessels only during the State Of Emergency. The unexpected increase was due to the huge increase in the number of fishing vessels from 240 last year to 292 during the review year. The recorded number of port calls in statistical percentage stand at; Fishing Vessels at 46%, Container Vessels at 23% and General Cargo Vessels at 20%. The rest were Gas & Fuel Tankers, Naval and Yachts, Cable ships.

Revenue tonnage (Vessels GRT) declined by 32% below the previous year; recorded tonnage of 2.6 million compare to 3.7 million in 2019. The significant reduction in the number of cruise ships by 88% and container vessels by 12% is the main driving factor for the decrease.

Container volumes also dropped by a marginal 2% below the previous year, a total of 41,2000 TEUs compare to 42,102 TEUs the previous year.

#### **Financial Performance**

The past three fiscal years have indicated an upward trend financial wise for the Authority and for this FY, impacted by the measles outbreak and the Covid 19 for the last seven months, the Authority's financial performance declined, producing the second highest Net Profit since its establishment twenty years ago.

The recorded Net Profit of \$7.6 million for this FY is lower than the previous year by 13% and below the annual budget of \$8.6 million by 12%.

The Authority's Cash position continues to remain steadily healthy despite honouring its statutory obligation by paying Dividend to Government. The ending cash balance of \$10.4 million is 30% better than the previous year balance of \$8.0 million.

Total Dividend paid during the period was \$2.0 million to cover 35% Dividend for financial year 2018 and part of 35% Dividend for 2019 financial year profits.

## **Development Projects**

The official signing of the USD\$62 plus Grant Assistance by the ADB to fund the Enhancing Safety, Security and Sustainability of the Apia Port Project (ESSSAP) was officiated in Apia by the ADB Regional Director and the Minister of Finance in September 2019.

The Authority also hosted a Team from China in Apia for the official exchange of notes to mark the approval and commencement of the feasibility study for the proposed Vaiusu Port and the rehabilitation of the Asau channel project. The Feasibility Study Teams arrived and commenced their fieldwork in October and completed in January 2020. A full report will be submitted in due course to confirm the next stage for this project.

#### Outlook

Unexpected events during the year has definitely shaped the way the Authority carry out its normal functions to a certain extent. The new requirements under the SOE remains a challenge for the Authority especially the front-line staff

Looking ahead whilst we still operate under SOE orders, it is a vitally important period for the Authority to review it's security and safety procedures

The authority will continue to pursue its long term plans to develop new ports and improve existing facilities to be able to become the Leading Port in the Pacific in providing safe, efficient and effective port services.

## Orbituary

The Authority bid farewell to one of it's Board Directors; Afioga Moananu John Filemu who passed away at the beginning of 2020. Moananu previously served as the Board Chairman of the Lands Transport Authority before he was appointed as a Board Director and a member of the Authority's Audit Committee. I wish to extend the Authority's deepest sympathy to the family for their loss.

## Acknowledgement

On behalf of SPA I wish to acknowledge with appreciation the support and contribution from our business partners, stakeholders and all port-users.

After another strong performance despite the challenges, I would like to thank the Hon Minister of Works, Transport & Infrastructure, Hon. Tapunuu Papaliitele Unasa Niko Lee Hang for the advice and unfailing support rendered during the year.

I would also like to especially thank the SPA Board Chairman, Afioga Tuiloma Neroni Slade for proficiency guidance and leadership. I thank the hard working Board of Directors and my Senior Management Team for their diligence, contribution and support.

Finally, I would like to acknowledge and thank all staff for their hard work, support and commitment to the Authority's drive for operational safety and financial success.

Malo tautua, faafetai lagolago, faamanuia le Atua ia te outou ma

#### Faafetai.

So'oalo Kuresa SO'OALO GENERAL MANAGER

# **SPA PROFILE**

Samoa Ports Authority (SPA) was established in July 1999 under the Ports Authority Act 1998.

As a State Owned Entity (SOE), the Authority must also comply with the provisions of the following legislations:

- Public Bodies (Performance & Accountability) Act 2001
- Public Finance Management Act 2001
- Shipping Act 1998
- Small Vessel Regulations 1998
- Labour and Employment Relations Act 2013
- Companies Act 2001
- Cabinet Directives

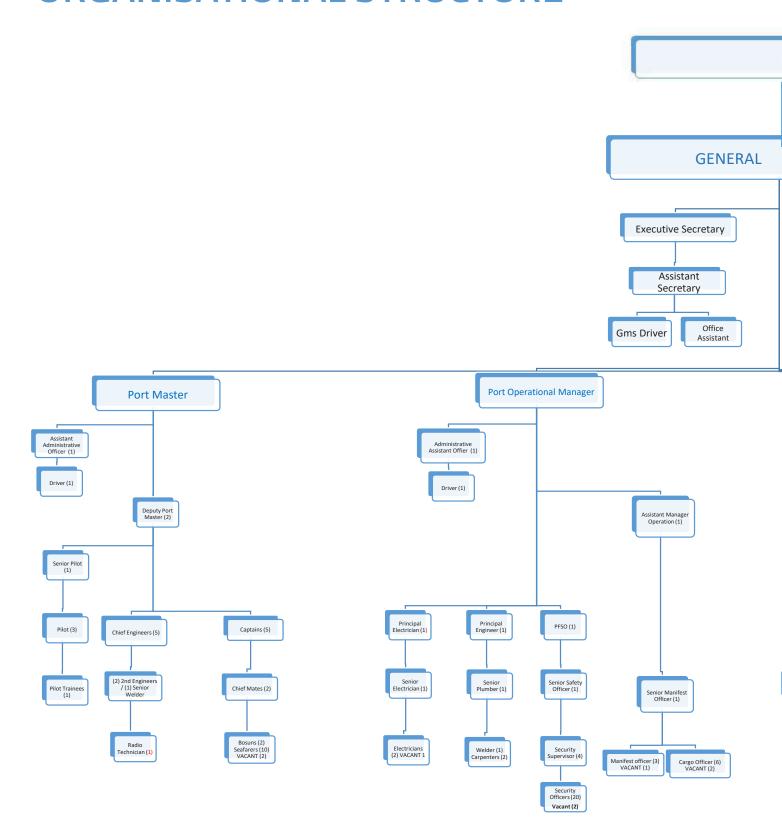

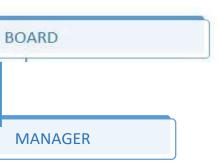

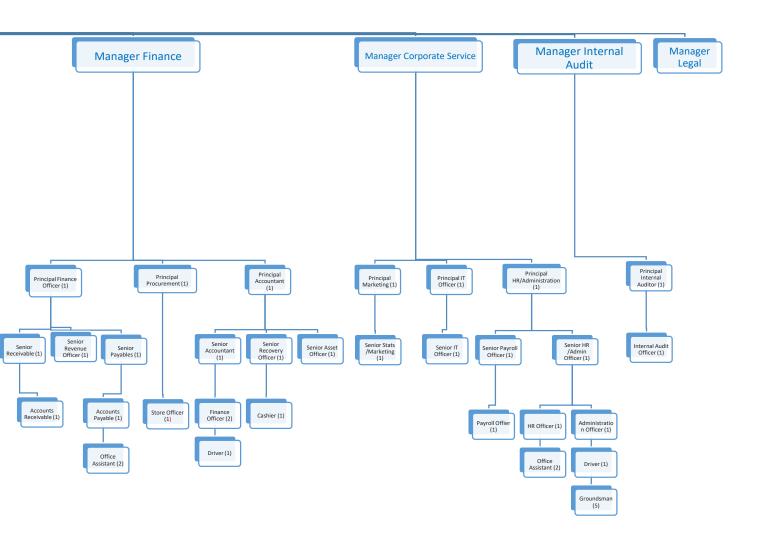

# **ORGANISATIONAL STRUCTURE**

# **CORPORATE GOVERNANCE**

Samoa Ports Authority as a state owned entity was established under the Ports Authority Act 1998 on 1st July 1999.

The Samoa Ports Authority Board of Directors is mandated under section 5 of the Ports Authority Act 1998 which state that Board composition must be seven (7) members. Section 6 of the same Act legislated the term in office for Directors of five (5) years and section 7 define the remuneration of Directors.

Samoa Ports Authority's Board and Management recognise the importance of good corporate governance in the performance of their duties and responsibilities.

### **Our Board**

Collectively, our Board of Directors hold experience developed during successful careers in Government, International & Regional Organisations, Law, Finance, Insurance, Agriculture, shipping, logistics, transport and management in Samoa and abroad and have extensive experience at both executive and board levels

#### Tuiloma Neroni SLADE - Chairman

Afioga Tuiloma was appointed Chair in December 2017 after a successful career as a Judge of the International Criminal Court in The Hague, The Netherlands. More recently he served as Secretary General of the Pacific Islands Forum Secretariat; and previously as Samoa's Ambassador/Permanent Representative to the United

Nations based in New York. Prior to that he was Assistant Director in the Legal Division of the Commonwealth Secretariat in London. In his earlier career he held office as Attorney-General of Samoa.

#### Tuatagaloa Shane WULF - Deputy Chairman

Tuatagaloa has been serving as a Director for the Authority for over seven years. He is a Lawyer by profession and a member of the Samoa Law Society. He is running his own private practice Wulf Law Firm

#### Luafau Leia Tuulima AIMAASU

Luafau is the longest serving Board Director of the Authority. Prior to his appointment as a Directors for SPA, he served on other Government SOEs Boards and has a wealth of experience as a Government SOE Director.

A successful commercial farmer, Luafau is the Government Representative (Mayor) looking after the affairs of his village representing Government in any matters concerning his village.

#### Tevaga Pisaina LEILUA – LEI SAM

Pisaina is an independent consultant in corporate governance, public economic policy development and practice, strategic planning, financial management and evaluation practices in the Pacific and Samoa with more than 25 years' experience.

She was the Deputy Financial Secretary when she left the Treasury Department (now Ministry of Finance) in 1999 to join SPREP. She later joined the Pacific Island Forum Secretariat (PIFS) Fiji in 2004. She became the Director of Finance, Savings and Development Banks of the Government of Tokelau in 2007 until 2011.

#### Afoa Raymond PEREIRA

Afoa served in the Government at the Customs Division of the Ministry for Revenue for many years. He held the position of Assistant Chief Executive Officer for the Customs Division when he retired from the service before his appointment as a Director for the Samoa Ports Authority.

#### Rev Nuuausala Siaosi SIUTAIA

As a graduate of Malua Theological College, Rev Nuuausala is currently serving as the Church Minister for the Protestant Church in Apia after serving on overseas missions for many years.

Rev Nuuausala was appointed a Director for the Authority in 2017

## **SPA Senior Management TEAM**

Seinafolava Capt Lotomau TOMANE

PORT OPERATIONS MANAGER Lealaiauloto Capt Tafai TOILOLO

FINANCE MANAGER
Moe LENE

CORPORATE SERVICES MANAGER
Peter Gafa LOKENI

MANAGER INTERNAL AUDIT Tuitama Nia VAIFALE

# **REVIEW OF OPERATIONS**

## **Major Projects & Significant Events**

#### ADB – Enhancing Safety, Security and Sustainability of the Apia Port Project (ESSSAP)

#### September 2019

The official signing of the USD\$62.26 million Grant by the ADB to fund the Enhancing Safety, Security and Sustainability of the Apia Port Project (ESSSAP) was officiated in Apia by the ADB Regional Director and the Minister of Finance in September 2019.

This project will greatly enahanced the safety, security and sustainability of the Apia Port for many years to come.

It is expected that construction will commence early 2021 for approximately two years.

#### **VAIUSU PORT & ASAU CHANNEL FEASIBILITY STUDIES**

#### September 2019

The Authority hosted a Team from China in Apia for the official exchange of notes to mark the approval and commencement of the feasibility studies for the proposed Vaiusu Port and the rehabilitation of the Asau channel project.

The Feasibility Assessors and Survey Teams from China arrived in October 2019 to commence the Feasibility studies field work for the Vaiusu proposed new port and the rehabilitation of the Asau port channel.

The Feasibility studies fieldwork and assessment were completed in January 2020 with the Full Report expected to be available by the Chinese Government before the end of 2020

#### **SENIOR MANAGEMENT APPOINTMENTS.**

#### October 2019

In October 2019, the Board approved the reappointment of Mr Lealaiauloto Tafai Toilolo to the position of Port Operations Manager for another three year contract. This will be Lealaiauloto's second three year term in this position.

#### - July 2019

The financial year kicked start with the hosting by the Authority of the 44th Pacific Maritime Transport Alliance (PMTA) Annual Conference. It was well attended by most of the Pacific Ports Executives and many port related business partners. The PMTA Executive meeting was held on the first day before the official opening of the conference by the Hon Prime Minister of Samoa with the Hon Minister of Works Transport & Infrastructure officiated the official closing

The Annual conference voted in the GM of SPA as the President of the PMTA for the next three years and confirmed the relocation of the PMTA Secretariat to Apia.

The PMTA 44th Conference coincided with the commemoration of the SPA 20th Anniversary on 1st July 2019.

#### **MEASLES & COVID 19 PANDEMIC**

#### Dec 2019 – Mar 2020

The Measles Outbreak in December 2019 caused panic across the community and five confirmed cruise ships calls for the month were cancelled which had an impact on the Authority's operation and results. To assist the National Emergency Operations Center (NEOC) work during the outbreak, the SPA Board approved a cash donation of \$100,000 tala

Whilst the country was slowly recovering from the measles outbreak scare, Government declared a State of Emergency (SOE) in March 2020 and enforce restrictions when the news of the Covid 19 reached us especially on travel and gatherings in preparations in the event the coronavirus arrives. The Apia International Port remained open for much needed supplies and enforcement of wearing personal protective equipment (PPEs) within the port area became mandatory immediately with the Police presence during the vessels operations to assist SPA Security for security and safety reasons.

Six cruise ships confirmed bookings for March to May 2020 were cancelled because of the coronavirus which continued to have a significant impact on the overall operational and financial results of the Authority. To assist its Port Users, the Board approved the stimulus assistance below as part of the overall Government Stiumulus Package:

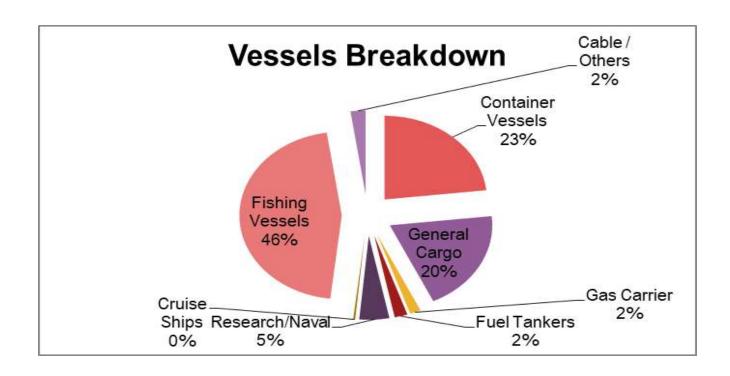

- 1. Rent Free for all SPA Tenants for three months (April June 2020)
- 2. 20% Discount on wharfage fees for commercial & individual customers for three months (April June 2020)
- 3. Refund of three month Stevedoring Companies Licence fees

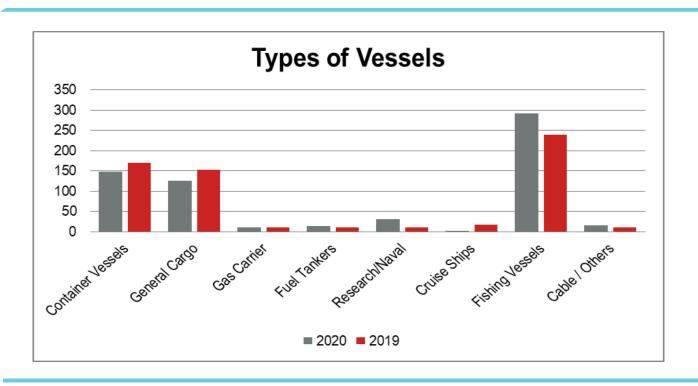

The overall operation during the financial year was dominated by the additional safety requirements during vessels operation to curb potential arrival of Covid-19 virus through the Apia Port. In collaboration with the National Emergency Operation Centre (NEOC), Ministry of Health (MOH) and other government agencies, new protective measures were introduced and immediately enforced:

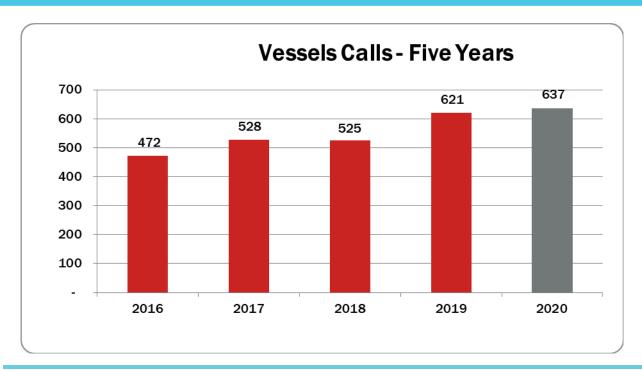

- Mandatory health screening by MOH at quarantine buoy for all vessels
- SPA pilots to be in full PPE during pilotage and berthing operation
- Stevedoring employees to be in full PPEs during operation to be disposed before leaving the port
- No crew shore leave, no crew is allowed to disembark
- All PPE to be disposed before leaving the port
- Port Securities and Police presence during vessels operations
- One cargo and two fishing vessels were denied entry by MOH when the coronavirus new meas ures were enforced since March

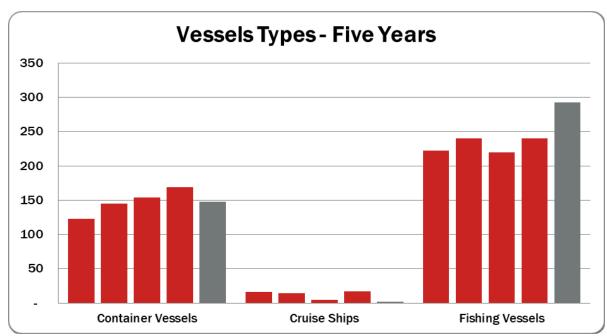

# **PORT STATISTICS**

	2019	2020
Number of Vessels Calls	621	637
Container Vessels	169	148
Cruise Ships	17	2
Fishing Vessels	240	292
Vessels GRT	3,672,558	2,498,536
No of Containers (TEUs)	42,102	41,200

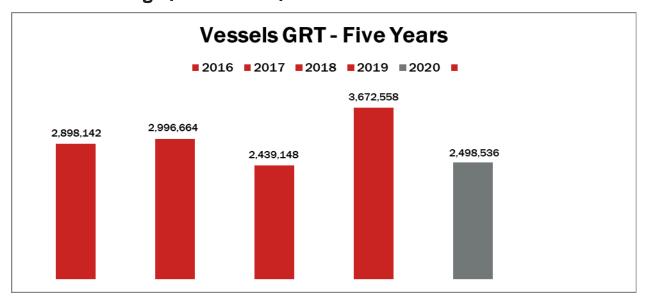

The number of vessels recorded at the Apia Port during the financial year was 637 compare to 621 in the previous year; increase by 3%. Container vessels declined by 12% from 169 last year to 148, General Cargo vessels also decreased by 18% from 153 to 126. The number of cruise ships slumped by a massive 88% from 17 last year to only 2 during this financial year and fishing vessels rose by 22%.

The fishing vessels represented 46% of the total for the year, container vessels at 23%, general cargo at 20%, and the others sharing the rest.

The above data portrays the impact of the measles outbreak and the covid 19 pandemic that severely impacted the operation in the last seven months of the financial year. The cancellation of confirmed cruise ships bookings from December 2019 and the restricted type of ships allowed to berth of only cargo and fishing when the state of emergency orders were enforced in March.

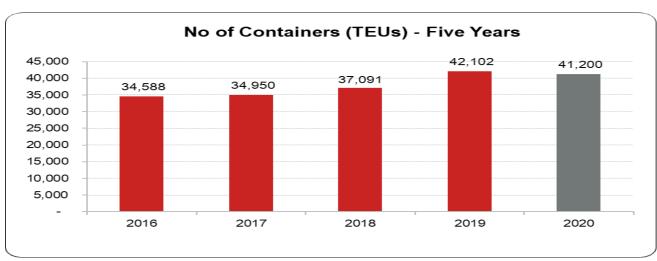

The number of vessels berthed at the Apia Port steadily rose over the last five years, specifically rose by 35% from only 472 in 2016 to 637 in 2020.

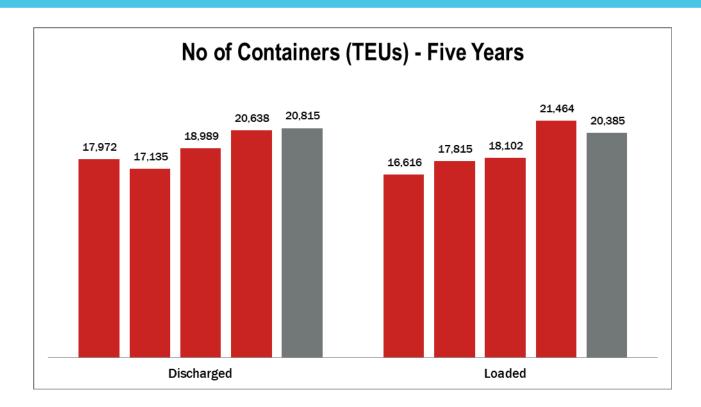

## **Revenue Tonnage (Vessels GRT)**

The total vessels GRT recorded of 2.5 million is 32% lower than the previous year amount of 3.7 million tons. The significant drop of 88% in the number of cruise ships from 17 to 2 and the reduction in the number of container vessels by 12% caused by the measles outbreak and the covid 19 pandemic is the main contributing factor for the significant variance.

## **Number of Container (TEUs)**

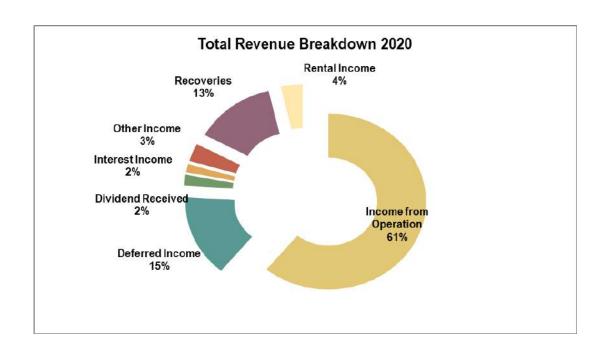

The number of containers (TEUs) handled at the Apia Port steadily rose over the last four years as indicated above but slightly dropped during the financial year by 2% due to the reduction in the number of container vessels by 12%. The breakdown of the total is almost 50/50 between discharged and loaded containers.

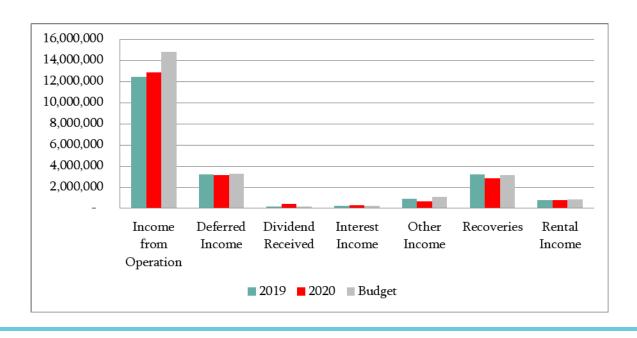

# **REVIEW OF FINANCIAL RESULTS**

#### **REVENUE**

	2019	2020	Budget
Income from Operation	12,429,612	12,842,564	14,822,703
Deferred Income	3,218,718	3,174,369	3,256,766
Dividend Received	185,820	422,176	200,000
Interest Income	255,942	319,466	255,409
Other Income	883,912	694,860	1,097,911
Recoveries	3,231,510	2,846,119	3,149,828
Rental Income	809,489	765,722	859,635
Total Revenue	21,015,003	21,065,276	23,642,252

Total Revenue earned of \$21.07million slightly increased by 0.2% in comparison to the sum attained in the previous year of \$21.02million but short of the annual budgeted total of \$23.64million by 11%.

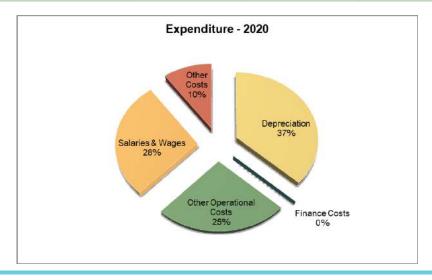

Income generated from Core Operations made up 61% of the total revenue and recorded an increase of 3% over the prior year results, but lower than the annual budget by 13%. Revenue from Recoveries made up 13% of the total revenue posted a decline of 12% below last year and less than annual budget by 10%.

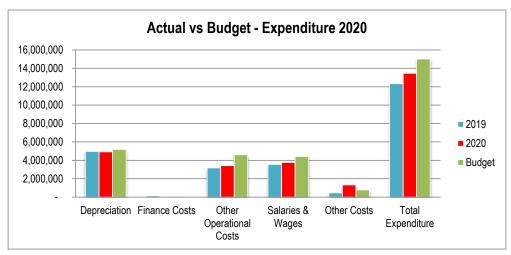

The increase in the number of vessels as reported herein especially the rise in the number of fishing vessels attributing factor to better revenue performance results despite the negative impacts of the measles and covid 19 pandemic during the financial year.

It is also noteworthy that the Authority honouring its community support commitment, donated to assist during the measles outbreak and offered discounts to all its customers for three months as part of the Government overall stimulus assistance.

#### **EXPENDITURE**

	2019	2020	Budget
Depreciation	4,971,718	4,930,855	5,181,891
Finance Costs	147,983	4,589	4,500
Other Operational Costs	3,177,737	3,423,524	4,611,713
Salaries & Wages	3,559,190	3,768,769	4,429,399
Other Costs	470,048	1,338,976	787,341
Total Expenditure	12,326,676	13,466,713	15,014,844

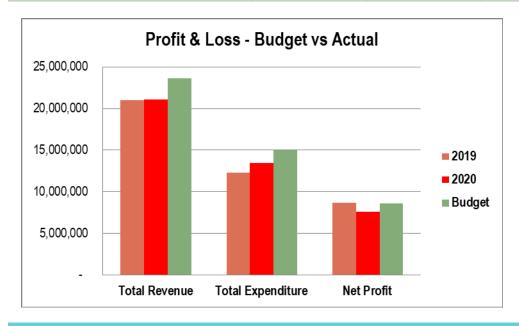

Total Expenditure rose by 9% compare to the previous financial year but lower than annual budgeted total expenditure by 10%. Depreciation dominates the cost structure at 37% (2019: 40%), followed by Salaries & Wages at 28% (2019:27%), Other Operational Costs at 25% (2019:26%), and Other Costs at 10% (2019:4%).

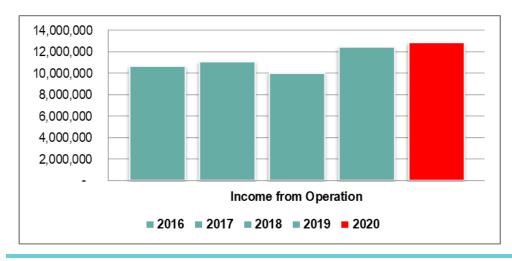

Depreciation marginally declined by 1% over the last financial year and below annual budget by 5%. Other Operating Cost increased by 8% over last year but lower than annual budget by 26%. Salaries & Wages slightly rose above last year by 6% but below annual budget by 15%.

	2019	2020	Budget
Total Revenue	21,015,003	21,065,276	23,642,252
Total Expenditure	12,326,676	13,466,713	15,014,844
Net Profit	8,688,327	7,598,563	8,627,408

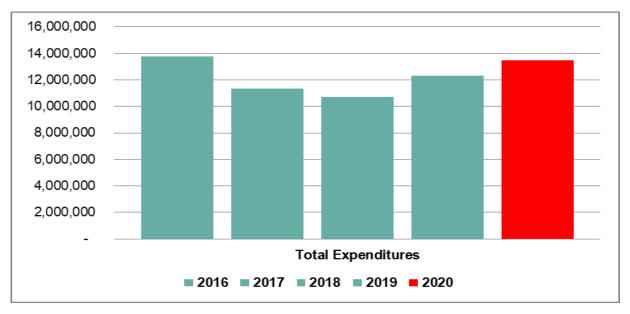

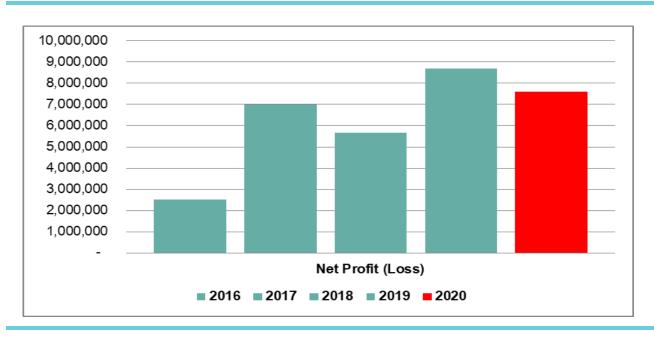

Overall, a Net Profit of \$7,598,563 was recorded for the financial period which is lower than the previous year result of \$8,688,327 by 13% and short of the Annual Budget by 12%. With the cancellation of twelve (12) confirmed cruise ships from December 2019 till the end of the year and the approval of community support financial assistance of WST\$578,540 when the state of emergency for covid 19 pandemic was enforced, the above result is considered good and encouraging. Under such adverse operational conditions for seven months of the financial year, the Authority managed to achieve the second highest Net Profit since its establishment 20 years ago.

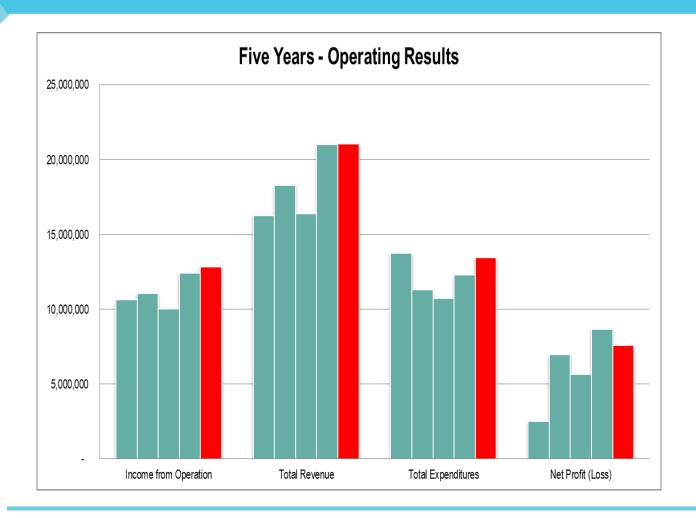

#### FINANCIAL PERFORMANCE – FIVE YEAR TREND

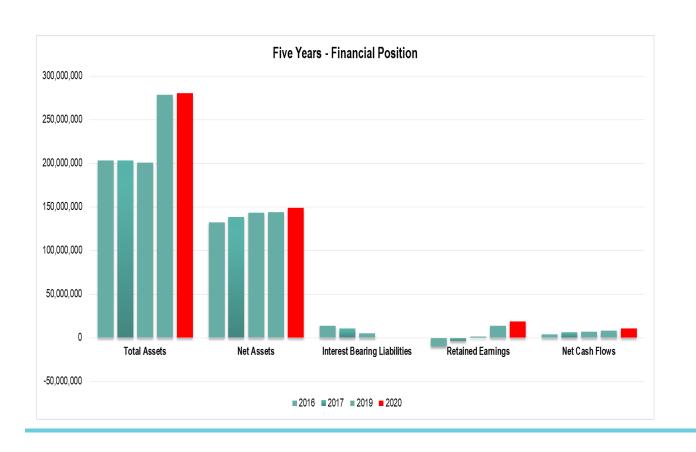

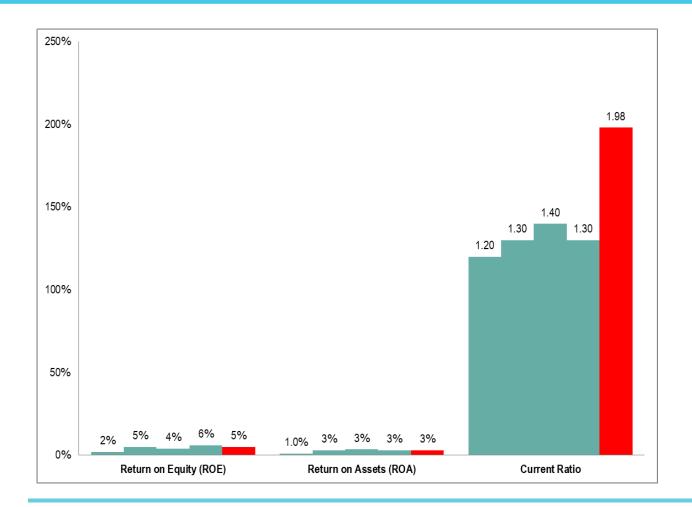

## **FINANCIAL POSITION - FIVE YEAR TREND**

The above figures illustrate a positive trend in the last four years. Notably to say that Interest Bearing Liabilities totalled WST\$13.4million in 2016 was drastically reduced to WST\$4.70million in 2018, a reduction of 65% over three years, and was paid off in the second quarter of the last financial year.

The Cash Flow position of the Authority has steadily improved from WST3.8million in 2016 to WST\$10.4million in 2020, a huge increase of 174% over five years.

Retained Earnings rose sharply from negative \$10.2million in 2016 to \$18.2million in 2020.

Return on Equity (ROE) over five years consistently achieved a positive 2% in 2016, 5% in 2017 and 4% in 2018 and 6% in 2019 and 5% this financial year

# Samoa Ports Authority CERTIFICATION BY DIRECTORS FOR THE YEAR ENDED 30 JUNE 2020

We certify that the attached financial statements for Samoa Ports Authority comprising the statement of financial position, statement of financial performance, statement of changes in equity, statement of cash flows and notes to financial statements for the year ended 30 June 2020;

- a. give a true and fair view of the matters to which they relate; and

#### **Directors**

The Directors of the Authority at the date of this report are:

- Tuiloma Neroni Slade (Chairman)
- · Tuatagaloa Shane Wulf
- Luafau Leia Tuulima Aimaasu
- · Afoa Raymond Pereira
- Tevaga Pisaina Leilua-Lei Sam
- · Reverend Nuuausala Siaosi
- Moananu loane Filemu (appointed since February 2019)

#### **Operating Results**

The net profit for the year 2020 is \$7,598,563 (2019: \$8,688,327).

#### **Principal activities**

The principal activity of the Authority is the provision and management of port services and cargo handling facilities on the islands of Upolu and Savaii. Its main office is located at Matautu-tai.

#### **Dividends**

The Directors approved the payment of dividend of **WST \$2,659,497** based on the rate established by Cabinet directive FK (18) 11. The Authority has paid **WST \$1,985,172** during the financial year ended 30 June 2020.

#### Going concern

The financial statements of the Authority have been prepared on a going concern basis. We consider the application of such basis to be appropriate in the preparation of these financial statement as we believe the Authority has sufficient funds to settle its obligations over the next 12 months from the date of the Directors rep ort.

#### Related party

All related party transactions are adequately disclosed in the notes to financial sta tem ents .

# Samoa Ports Authority CERTIFICATION BY DIRECTORS FOR THE YEAR ENDED 30 JUNE 2020

#### Events subsequent to balance sheet date

Directors are not aware of any matters or circumstances that would have a major adjustment or disclosure in the financial statements succeeding 30<sup>th</sup> June 2020.

However, the effect of COVID-19 pandemic does not have a significant financial impact nor year-end adjustments in the financial statements of the Authority. The Directors completed an assessment on the consequence of the pandemic on the Authority and has determined it may not significantly influenced the organization for the time being. The Authority still enable to earn profits at year end and not very significantly decrease compared to the previous financial year, that is, the Authority still able to made collection of revenues.

#### Unusual transactions

The Authority's year-end results and up to date of this report, has not in the opinion of the Directors nor substantially affected by any item or event of a material and unusual nature other than those disclosed in the financial statements.

Dated at Apia: 23th October 2020

Signed in accordance with a resolution of the Directors.

#### REPORT OF THE AUDIT OFFICE

#### TO THE GOVERNING BODY IN CHARGE OF GOVERNANCE - SAMOA PORTS AUTHORITY

#### **Audit Opinion**

We have audited the accompanying Financial Statements of the Samoa Ports Authority, which comprise the Statement of Financial Position as at 30 June 2020, the Statements of Financial Performance, Changes in Equity and Cash Flows for the year then ended, a Summary of Significant Accounting Policies and Other Explanatory Notes. The Accounting Firm of Lesā and Penn, Chartered Accountants, assisted in the audit. The Engagement Partner on the audit resulting in this Independent Auditor's Report is Matataualiitia Afa Lesa.

In our opinion, the financial statements give a true and fair view of the financial position of the Samoa Ports Authority as at 30 June 2020, and of its financial performance, changes in equity and cash flows for the year then ended, in accordance with International Financial Reporting Standards (IFRSs), Public Finance Management Act 2001, Public Bodies (Performance and Accountability) Act 2001, and Ports Authority Act 1998.

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of Financial Statements* section of our report. We are independent of the Authority in accordance with the ethical requirements that are relevant to our audit of financial statements in Samoa, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

#### Responsibilities of Those Charged with Governance for the Financial Statements

Directors and Management are responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, Public Finance Management Act 2001, Public Bodies (Performance and Accountability) Act 2001, and Ports Authority Act 1998, and such internal control as directors and management determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intends to liquidate the Authority or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Authority's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with these International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements whether due to fraud or
error, design and perform audit procedures responsive to those risks, and obtain audit
evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a

AUDIT OFFICE

material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
  appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of
  the Authority's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Authority's ability to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures, are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Authority to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the
  disclosures, and whether the financial statements represent the underlying transactions and events in a
  manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the management with a Statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and where applicable, related safeguards.

#### Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Ports Authority Act 1998,

In our opinion:

- (a) proper books of account have been kept by the Authority, so far as it appears from our examination of those books; and
- (b) the financial statements are in agreement with the books of account; and
- (c) to the best of our knowledge and according to explanations given to us the financial statements give the information required by the Ports Authority Act 1998 in the manner so required.

Our audit was completed on the 23rd October 2020 and our opinion is expressed as at that date.

Apia, Samoa 26 October 2020 Jaslyn T. Mariner-Leota

ASSISTANT CONTROLLER AND AUDITOR GENERAL

Total Cash on hand and at Bank	10,387,611	8,015,803

The accompanying notes form an integral part of the above financial statement.

#### 1. General information

The Authority was established on 1st July 1999 under the Samoa Ports Authority Act 1998. The main functions and powers of the Authority are stipulated in section 8 of the Ports Authority Act. Samoa Ports Authority is a Statutory Authority domiciled in Samoa and is involved in the provision and management of port services and cargo handling facilities on the island of Upolu and Savaii and its main Office is located at Matautu-tai.

#### 2. Statement of Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### (a) Statement of compliance

These financial statements have been prepared in accordance with the requirements of the Public Finance Management Act 2001 which requires the adoption of International Financial Reporting Standards issued by the International Accounting Standards Board (IASB) in preparing its financial statements.

 New and revised International Financial Reporting Standards effective on or after 1st January 2018

International Accounting Standards Board (IASB) officially issuing a number of new and revised standards effective for annual periods beginning on or after 1st January 2018; and earlier adoption was also permitted. However, the Authority has not early adopted some of these new and revised standards in preparing these financial statements given the implication is not applicable to the Authority. Such standards comprised the following:

#### a. IFRS 9 'Financial Instruments'

IFRS 9 issued on 24th July 2014 is the IASB's replacement of IAS 39 Financial Instruments: recognition and measurement. The Standard includes requirements for recognition and measurement, impairment, de-recognition and general hedge accounting. IFRS 9 issued in 2014 supersedes all previous versions and is mandatorily effective for periods beginning on or after 1st January 2018 with early adoption permitted (subject to local endorsement requirements).

#### Recognition and de-recognition

Financial assets and financial liabilities are recognised when the Authority becomes a party to the contractual provisions of the financial instruments.

Financial assets and financial liabilities are de-recognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred. A financial liability is de-recognised when it is extinguished, discharged, cancelled or expires.

#### Classification and measurement of financial assets

All financial instruments are initially measured at fair value plus or minus, in the case of a financial asset or financial liability not a fair value through profit or loss, transaction cost. Except for those trade receivables that do not contain a significant financing component and are measured at fair value adjusted for transaction costs (where applicable).

Financial assets of the Authority are classified into the amortised cost category only and consist of cash and cash equivalents, bank term deposits and trade receivables. The classification is determined by both:

- the entity's business model to hold the financial asset to collect contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise fair value changes)
- the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

All income and expenses relating to financial assets that are recognised in profit or loss are presented within finance costs, finance income or other financial item.

Subsequent measurement of financial assets

#### Financial assets at amortised cost

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding

After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. The Authority's cash and cash equivalents, investments, trade and most other receivables fall into this category of financial instruments.

#### Impairment of financial assets

IFRS 9's impairment requirements use more forward-looking information to recognise expected credit losses – the 'expected credit loss (ECL) model'. This replaces IAS 39's 'incurred loss model'. Instruments within the scope of the new requirements included loans and other debt-type financial assets measured at amortised cost and FVOCI, trade receivables, contract assets recognised and measured under IFRS 15 and loan commitments and some financial guarantee contracts (for the issuer) that are not measured at fair value through profit or loss.

Recognition of credit losses is no longer dependent on the Authority first identifying a credit loss event. Instead Authority considers a broader range of information when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

In applying this forward-looking approach, a distinction is made between:

- 1. stage 1 financial instruments that have not deteriorated significant in credit quality since initial recognition or that have low credit risk; and
- 2. stage 2 financial instruments that have deteriorated significant in credit quality since initial recognition and whose credit risk is not low
- 3. stage 3 would cover financial assets that have objective evidence of impairment at the reporting date

'12-month expected credit losses' are recognised for the first category while 'lifetime expected credit losses' are recognised for the second category.

Measurement of the expected credit losses is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument.

#### Trade and other receivables

The application of expected credit loss through provision matrices on trade and other receivables is generally not required in the Authority's situation. The Authority do not have a trade or other receivable with a significant financing component, hence, are measured on initial recognition at the transaction price determined under IFRS 15 Revenue from Contracts with Customers, and do not have a contractual interest rate. This implies that the effective interest rate for these receivables is zero.

#### Equity instruments – Unit of Trust of Samoa investments

All equity investments in scope of IFRS 9 are to be measured at fair value in the statement of financial position, with value changes recognised in profit or loss, except for those equity investments for which the entity has elected to present value changes in 'other comprehensive income'.

The Authority's investments at Unit of Trust of Samoa are measure at fair value, the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price), in the financial position with changes in fair value recognised in financial performance under "other income".

#### Classification and measurement of financial liabilities

As the accounting for financial liabilities remains largely the same under IFRS 9 compared to IAS 39, the Authority's financial liabilities were not impacted by the adoption of IFRS 9. However, for completeness, the accounting policy is disclosed below.

The Authority's financial liabilities include trade and other payables and are classified into the amortised cost category.

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Authority designated a financial liability at fair value through profit or loss.

Subsequently, financial liabilities are measured at amortised cost using the effective interest method.

#### b. IFRS 15 'Revenue from Contracts with Customers'

IFRS 15 establish the principles that an entity shall apply to report useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer. The standard provides a single, principles based five-step model to be applied to all contracts with customers except for: leases within the scope of IAS 17 Leases, financial instruments and other contractual rights or obligations within the scope of IFRS 9 Financial Instruments; and non-monetary exchanges between entities in the same line of business to facilitate sales to customers or potential customers.

The core principle of IFRS 15 is that an entity will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This core principle is delivered in a five-step model framework:

Step 1 – Identify the contract(s) with a customer

Step 2 - Identify the performance obligations in the contract

Step 3 – Determine the transaction price

Step 4 – Allocate the transaction price to the performance obligations in the contract

Step 5 – Recognise revenue when (or as) the entity satisfies a performance obligation

Application to the Authority:

The Authority signed contracts with the public for using land, office space/units, warehouse; and anchorage area for fishing boats. These contracts are at a maximum of 20 years including the transaction price which the Authority expects to receive before a particular customer commence their operation. The contract does not specified a performance obligation towards the Authority of exchange for transferring promised services or goods to the customer with revenue recognition to depict transferring of agreed transaction. Therefore, the Authority's contract with customers is complied with IAS 17 Leases under Lessor scope.

Hence, IFRS 15 is not applicable nor have an implication on the Authority.

#### c. IFRS 16 'Leases'

IFRS 16 establishes principles for the recognition, measurement, presentation and disclosure of leases with the objective of ensuring that lessees and lessors provide relevant information that faithfully represents those transactions.

The standard provides a single lessee accounting model, requiring lessee to recognise assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, with IFRS 16's approach to lessor accounting substantially unchanged from its predecessor, IAS 17. Lessor accounting model required classification of lease whether as an operating lease or finance lease if certain circumstances satisfied the definition of the types of lease. That is, a lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset, otherwise, a lease is classified as an operating lease.

Application to the Authority:

The Authority is leasing out its properties, including land, office space/units, anchorage area for fishing boats and warehouse, at Mata'utu wharf to several Shipping Agents, it allows lessee's to use the Authority's properties but they do not convey ownership rights of the assets at the end of the lease term. The Authority's assets held for operating leases are presented in the statement of financial position under Property, plant and equipments; and the lease income recognised over the lease term on a straight-line basis in accordance with IAS 17.

Hence, IFRS 16 is not applicable nor have an implication on the Authority.

#### (b) Basis of preparation

The financial statements have been prepared on the historical costs basis unless otherwise stated. The principal accounting policies are stated to assist in a general understanding of these financial statements. Reporting financial statements in accordance with International Financial Reporting Standards (IFRS) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period and future periods.

#### (c) Comparative information

Comparative information's have been restated where necessary to achieve consistency in disclosure with current financial year amounts. Note 21 refers to correction of prior period error relating to material misstatement of transferring of domestic wharves to Samoa Shipping Corporation which affects Retained Earnings and Capital.

#### (d) Going concern

The Authority's going concern is assured by the Directors based on the grounds that the Authority will be able to settle its obligations as and when they fall due.

#### (e) Functional and presentation currency

The financial statements are presented in Samoan Tālā (WST\$), which is the Authority's functional currency and all values presented in Samoan Tālā have been rounded to its nearest tālā.

#### (f) Foreign currency

Transactions in foreign currency are translated to Samoan tālā at the foreign exchange rate ruling at the date of the transaction. Amounts receivable and payable denominated in foreign currencies are translated at the rates of exchange ruling at balance sheet date. Foreign exchange differences arising on translation are recognised in the statement of financial performance.

#### (g) Bad and doubtful debts provision

Collectability of trade receivables is reviewed on an ongoing basis. A provision is raised for any doubtful debt based on a general review of the outstanding amounts at the end of the reporting period. Bad debts are written off against the provision for doubtful debts in the period in which they are identified as unrecoverable.

#### (h) Revenue recognition

Revenue from various operational services is recognised in the statement of financial performance when the service is performed. Revenue from the sale of goods is recognised in the statement of financial performance when the significant risks and rewards of ownership have been transferred to the customer. No revenue is recognised if there are significant uncertainties regarding collection of the revenue due or on the possibility of goods being returned.

#### (i) Expense recognition

Operating expenses according to the statement of financial performance consist of selling and advertising costs, administrative, occupancy and other costs.

#### (j) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise of cash at bank and on hand and term deposits with maturities of less than 365 days.

#### (k) Trade and other receivables

Accounts and other receivables are recorded at expected realization value after providing for bad and doubtful debts. At the end of each reporting period, the carrying amounts of accounts and other receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. If so, an impairment loss is recognised immediately recoverable. If so, an impairment loss is recognised immediately in the statement of financial performance.

#### (I) Provisions

A provision is recognised in the statement of financial position when the Authority has a present legal or constructive obligation as a result of past event, and it is probable that an outflow of economic benefits will be required to settle the obligation.

#### (m) Trade and other payables

Accounts and other payables are recognised at cost and represent liabilities for goods and services provided to the Authority before the end of the financial year that are unpaid and arise when the Authority becomes obliged to make future payments in respect of the purchase of these goods and services.

#### (n) Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses except for land cost which measured at revaluation method. Depreciation is charged so as to allocate the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The following rates are used for the depreciation of property, plant and equipment.

10 - 30 years **Buildings Breakwaters** 60 years Land 0 5 - 20 years Machineries 4 - 10 years Motor vehicle 7 years Office equipments Office furnitures 4 - 10 years 30 - 60 years Wharves Wharf - furnitures, equipments and others 3-5 years Workboats 10 - 30 years

#### (o) Value added goods and services tax (VAGST)

All amounts are shown exclusive of VAGST, except for accounts receivables and payables which are stated inclusive of VAGST (where applicable).

#### (p) Income Tax

The Authority is not subject to income tax.

#### (q) Dividend

Dividends are recognised as a liability in the period in which they are due and payable pursuant to the Public Bodies (Performance & Accountability) Regulations 2001.

#### (r) Borrowing cost

All borrowing costs are recognised in the statement of financial performance in the period in which they are incurred.

#### (s) Employee entitlements

Liabilities for employees' entitlements to salaries and wages, annual leave, long service leave and other current employee entitlements (that are expected to be paid within twelve months) are accrued at undiscounted amounts, and calculated at amounts expected to be paid as at reporting date.

Liabilities for other employees' entitlements, which are not expected to be paid or settled within twelve months of reporting date, are accrued in respect of all employees at the present value of future amounts expected to be paid

#### (t) Grants, aids in assistance, donations and capitalisation

The above are treated in the accounts in accordance with their nature and the form in which they are received;

- i. All items which are intended for the support of the Authority's operations and received in cash are taken to income on receipt.
- ii. All items which are received in the form of depreciable assets, are taken to income in the year of receipt.

#### (c) Terms and conditions of transactions with related parties

Sales to and purchse from related parties are made through arm's length transactions both at normal markets and on normal commercial term.

#### 24. Correction of FY2017/2018 Error

In July 2014, a cabinet directive FK (14)21 approved the official transfer of Domestic Wharves at Mulifanua and Salelologa to Samoa Shipping Corporation. These wharves which had a net book value of \$12,090,820 at the time were never deducted from Government Share Capital with Samoa Ports Authority. The transfer was treated as a Loss on Disposal.

As this material error was made in the financial year prior the comparative year, the change has been corrected by retrospectively applying it to the comparative amounts as follows.

Increase in Retained Earnings by \$12,090,820 to account the reversal of loss on disposal of wharves due to the misinterpretation of accounting treatment at the time.

The net effect of change is retained earnings by \$12,090,820 and Capital to decrease by the same amount.

	Actual 2018	Correction	Corrected Actual 2018
Capital and Reserves			
Capital	35,570,307	(12,090,820)	23,479,487
Land revaluation	106,803,002		106,803,002
Reserves	15,750	-	15,750
Retained Earnings	993,753	(12,090,820)	13,084,572
Total Equity	143,382,811	476,562	143,382,811

#### 25. Events after reporting date

The World Health Organization ("WHO") announced a global health emergency on 30<sup>th</sup> January due to a new strain of coronavirus originating in Wuhan, China, namely "COVID-19 outbreak". The outbreak placed a massive risk both locally and internationally as the virus spreads globally beyond its origin point. The WHO classified the outbreak as a pandemic based on the rapid exposure of the virus globally that have taken hundreds of lives.

Given of such massive disaster, the Government of Samoa imposed restrictions on any social gatherings, temporary close down of airlines and other measures declared in State-of-Emergency order to attempt the slow spread of the corona virus.

In the Authority, the Board conducted an assessment on the impact of the pandemic on the organization and has determined that will not be significantly influenced the Authority for the time being. This reflects from approval of stimulus package offered by the Authority to assist individuals and businesses in such difficult times through: 1) 3 months' rent free for all businesses operating on all wharves, 3 months refund on all stevedoring licenses; and 20% reduction on all wharfage fees for 3 months. Further, the Authority still able to made collection of revenues.

However, the full impact of the COVID-19 outbreak continues to evolve as of the date of this report. As such, it is uncertain as to the full magnitude that the pandemic will have on the Authority's financial condition, liquidity, and future results of operations. Management is actively monitoring the impact of the global situation on its financial condition, liquidity, operations, suppliers, industry, and workforce.

#### 26. Financial risk management

This section outlines the Authority exposure to financial risk and describe the methods used by management to control and monitor these risks. The major risks are credit risk, liquidity risk and market risk of interest rate and foreign exchange risk.

#### a. Credit Risk Management

Credit risk refers to the risk that a customer will default on its contractual obligations resulting in financial loss to the Authority.

The Authority has adopted a policy of only dealing with creditworthy customers and obtaining sufficient collateral where appropriate, as a means of mitigating the risks of financial loss from defaults. The Authority exposure and the credit ratings of its customers are continuously monitored and the aggregate value of transactions concluded is spread amongst approved customers. Credit risk is closely monitored by finance division through regular independent review designed to test the quality of credit exposure compliance with the Authority policies.

#### b. Liquidity Risk Management

Ultimate responsibility for liquidity risk management rests with the board of directors which has built an appropriate liquidity risk management framework for the management of the Authority's short, medium and long-term funding and liquidity management requirements.

#### 27. Capital Commitments

#### a. Major capital commitment

The major commitment of the Authority is the infrastructure development to upgrade breakwater and enhance port services and geared towards meeting stakeholders expectation of the Authority' service delivery. This project will be carried out for 2 – 4 years commencing 2019. The project has been approved and will be funded by the Asian Development Bank as a grant to the worth of USD\$62.2 million to be completed in 2023.

#### b. Other capital commitment

The Directors are not aware of any other capital commitments and not provided for the year end.

#### 28. Contingent Liabilities

As at year end, the Authority is exposed to a motion filed by Tanoa Hotel (Samoa) Limited for termination of land lease on Matautu wharf to be invalid and claiming damages for trespassing. The Authority terminated the lease due to potential breach of the lease agreement of the amount of rent it has paid since the lease was finalised.

As the date of signing the financial statements, this claim has not progressed any further legal proceedings and both parties are working through other options for early settlement given ongoing travel restrictions as Tanoa representatives are based in New Zealand.

#### 29. Approval of Financial Statements

These financial statements were approved by the Board of Directors and authorised for issue on the  $23^{6}$  October, 2020.
